## CELEBRATING 30 YEARS OF EXCELLENCE AND SUCCESS!

**The Sancryl Chemicals Executive Team**  
(From left to right)  
**Omar Saib (director), Ashok Udith (now retired), and Raj Naidoo (director)**

Sancryl Chemicals celebrates 30 years as a national supplier and manufacturer of polymers, specializing in industrial chemicals and coatings. With offices and warehouses now in all major cities, the company is the only privately black owned manufacturer of its type in South Africa.

Sancryl Chemicals has sales offices manned by specially trained staff and distribution networks in the major areas of KwaZulu Natal, Gauteng, and Western Cape. The Head Office, Production site and Laboratories are located at 5 Joyner Road, Isipingo, in Durban. Sancryl strongly believes that the best way to achieve business with a customer is "Service Through Alliances". Loyalty, as in many businesses, play a major part in relationships. Sancryl Chemicals believe that no customer is too big nor too small. The company believes in giving immediate effective response to customers and structures its organisation accordingly.

Over the years, Sancryl Chemicals has seen the development and growth of not just a work force and a company but a family, rich and diverse.

"The success of Sancryl Chemicals has been based on teamwork and many years of operational experience to meet our customer requirements"

*Iqram Sheik, Operations Manager.*

Sancryl Chemicals is recognised for their contribution to the chemical industry and as a leader in development and inspiring others towards a vision as well as their performance in production and commitment to its employees and customer's.

Sancryl has an on-site SHEQ department which is responsible for safety, health and welfare of all individuals involved. The SHEQ department is also responsible for annual medical assessments that each staff undergoes to ensure all staff are in a healthy condition. Wellness day programs are done twice annually to educate the staff on the importance of health and safety, and well-being with the added joy of fun activities and healthy meals.

Sancryl strives to be a quality employer, recognising employee achievements and rewarding exceptional performance towards the common goal of the company. The company marks the end of a year with a celebration to commemorate a successful year.

“ It was an amazing feeling to receive an award from the company and especially presented by the director himself. It is a great feeling to know that the company recognises what you have done and accomplished. Together, with hard work, we can move forward and achieve more”.  
*Selvan Pillay, Maintenance Supervisor.*

Sancryl Chemicals continuously strive to meet the requirements of its customers by ensuring decision-making, methods, standards, systems, procedures and team synergy all yield high performance and that they consistently respond to a changing world. Sancryl commits to constantly reviewing its processes, and to train its staff accordingly to ensure collective understanding of the commitment.

**Sancryl Chemicals has a fully equipped laboratory to ensure continuous development and to ensure standards on quality are always maintained.**

Customers are also enabled to partake in training programs conducted by the Sancryl Technical Support Centre in paint and coating manufacturing pro bono. Training and technical support is also conducted telephonically to assist those customers who are not able to be physically present in the laboratory. These form part of the company's commitment of building relationships with their customers and providing the best support possible.

Sancryl Chemicals' Research & Development team has been at the forefront of developing VOC compliant / environmentally friendly products and introducing an energy and water efficient production process. Over the past few years Sancryl has been concentrating its latest product and process developments to the field of sustainable environment and community development.

Sancryl proudly introduces the **enviro™** range of products as its commitment towards a sustainable environment. Products formulated conform to VOC regulations of the European directive 2004/42/EC. This has been introduced to all products and processes by Sancryl Chemicals whilst retaining existing technology for customer support and continuity.

30 years on, Sancryl Chemicals still aims for progress, growth and to provide a service to customers and employees. Throw in a little fun, with a combination of experience, mixed with an abundance of knowledge and you have Sancryl Chemicals, its teams.....its family!

"In my 30 years of service, I can honestly say that Sancryl have given us much more than the effort and hard work that we put in. It has given us jobs, freedom, dignity, loyalty, family, camaraderie, fun, commitment and motivation. A 30 year anniversary is certainly a day to celebrate and be grateful for." *Kay Saib, Financial Manager.*

" Thank you to our dedicated staff who had bought into furthering the ambitions of Sancryl Chemicals. A special mention must be made of the support we received from our various customers over the years, and trust that they continue to stand by us in the future. 30 years have sped by, and we look forward to continued success."

*Raj Naidoo, Director.*

"30 years is a huge milestone! We must thank each of our customers, suppliers, staff, neighbours, community, and other stakeholders in doing their bit to allow us to get to this achievement. Without them, this would not have been possible and certainly without them there would have been no meaning to this achievement. Also, we are very proud to give back to our community by giving them first time employment options and training in job skills. Some of our staff have been with us since inception and many first-time job seekers are still with us after more than two decades, in reality contributing to the concept of family rather than colleagues. Indeed, we are ever grateful to all for their contribution and remain proud, but humble. We look forward to another 30 years of success!" *Omar Saib, Director.*
